

ACPS 2023-2024

Annual Congress of PhD Students Program

The 2nd congress organised by LARIS PhD students

In order to promote the work of LARIS (Laboratoire Angevin de Recherche en Ingénierie des Systèmes) PhD students, the second edition of ACPS will be held at 3:30 pm on Friday, January 26 at Polytech Angers. ACPS provides a platform to all LARIS laboratory's PhD students and researchers to share their research activities, ideas and experiences. ACPS does not only allow all PhD students to present their research work but also offers an opportunity to show the evolution of research methods in LARIS.

Five speakers from LARIS PhD students will be presenting their work in English. Each presentation will last 15 minutes, followed by 5 minutes for questions. This annual congress is also an opportunity for PhD students to improve their communication skills in English.

ACPS 2023-2024

When?

January 26, 2024 at 3:30 PM

How?

In English

In person or remotely

Where?

Room E24

Polytech Angers

FRIDAY, 3:30 PM JANUARY 26 – E24

3:30 PM – 3:50 PM

OPENING SPEECH

3:50 PM – 4:10 PM

Stabilization to zero in a finite time for a thermal pde

Sara Fakh

4:10 PM – 4:30 PM

Evaluation of the reliability of electronic components for active implantable medical devices

Fatima-Ezahra Indmeskine

4:30 PM – 4:50 PM

Study of the present and future energy and environmental performances of domestic heat pumps

Mona Aridi

4:50 PM – 5:10 PM

Use Machine Learning to predict the cost of gas transmission network monitoring tours

Nadia Ghernaout

5:10 PM – 5:30 PM

Construction of an optimal contractor with a triangle configuration

Algassimou Diallo

5:30 PM – 6:00 PM

DRINKS AND SNACKS

ORGANIZING COMMITTEE

Tala Abdallah, ISISV PhD student
Bassel Chokr, SFD PhD student
Arthur Ignazi, SDO PhD student
Algassimou Diallo, SDO PhD student
