

# CALL FOR ABSTRACTS

# Annual Congress of PhD Students

## ACPS 2022

The first congress organised by PhD students.

### ACPS 2022

#### When?

4 and 5 July 2022

#### How?

In English

In person or remotely

#### Where?

Polytech Angers  
(Belle Beille)

In order to promote the work of LARIS (Laboratoire Angevin en Ingénierie des Systèmes) PhD students, this first edition of the Annual Congress of PhD Student (ACPS 2022) concerns all the staff of LARIS. The congress will be held in July 4-5, 2022 in Angers, France.

All PhD students of LARIS are invited to present their research activities in English. Each presentation doesn't have to exceed the duration of 20 minutes. The submission is open to doctoral students of any year, without the obligation to have published an article. This conference is also an opportunity for PhD students to improve their communication skills in English.

### ACPS 2022 TOPICS

- Discret events systems
- Combinatorial optimization
- Thermal systems
- Robotics
- Max-plus linear
- Artificial Intelligence
- Machine learning
- Signal and image processing
- Virtual reality
- Non-linear and multi-scale analyzes
- Applied statistics
- Probabilistic approaches and reliability
- Operational safety
- Performance and maintenance
- Bayesian statistics

### SUBMISSION

Abstracts should be submitted as a single PDF file, of 2 pages maximum (including references). It should contain the title of the presentation, the name and the e-mail of the PhD student, and his/her thesis supervisors.

On the web page ([here](#)), you can follow the instructions and submit your abstract.

### IMPORTANT DATES
